

2 Wheels Holder X-Bike for X Link Compatible Smartphones Black Crosscall

Descriptif produit

Installed in portrait or landscape mode on your handlebar, the X-BIKE has been especially designed to be adjusted in all positions.

Easy adjustment for all your stands

Adjust your X-BIKE without any tools. The locking button lets you mount it securely to any shape of handlebar or bracket of a diameter of 20 to 45mm. Its notched strap will ensure secure and accurate mounting.

Firm mounting for a solid attachment

By equipping the X-BLOCKER in addition to the magnets on your X-BIKE, your attachment will be able to resist a breakout force of 20kg. Never again will your activity be limited.

Orientation for a better performance

Equipped with two ball joints which let you adjust your X-BIKE at any angle, your smartphone can be oriented easily in landscape or portrait mode depending on your activity: tracking, GPS, photos or videos.
