

iPhone 11 Reinforced Folio Transparent Itskins

Descriptif produit

An effective reinforced folio that protects your mobile up to 2 meters

The Spectrum Vision folio offers with intelligent protection against drops up to 2 meters.

VisionClear makes the folio invisible : the cover is clear and touch-sensitive.

Fold it back for a personal viewing experience and hands-free video calls.

HEXO-TEK™ 2.0 air pocket technology provides military-grade 2 meter drop protection.

This innovative folio allows you to use your smartphone without removing it from protection, answering calls and viewing messages without lifting the front flap.

The shocks are absorbed, dissipated and repelled by the air cushion technology on contours and corners of the reinforced case.

The corners and edges are raised to provide optimum protection for the screen and photo lenses.

Allow free access to all the mobile functionalities as well as to the connectors.
