

Freebuds 3 - True Wireless Earbud Earphones White

Huawei

Descriptif produit

High-performance wireless earphones with crystal-clear sound, active intelligent noise cancellation, and a sleek, modern design

Automatic noise suppression

The combination of active noise reduction and Huawei's audio processor guarantees precise noise reduction in real time.

Exceptional sound

Thanks to its ergonomic design, it adapts perfectly to the shape of the ear. In addition to superior sound quality, they are very comfortable and offer a stable fit.

Superior processor

The Huawei FreeBuds 3 are true power packs: equipped with their own processor, the superior Kirin A1 chipset, and dual-mode Bluetooth® 5.1 SoC technology, they offer high wireless performance.

Feel the rhythm

The control is perfectly intuitive: a double dot on the right side of the headset is enough to play or toggle the music. The ANC function (Active Noise Cancellation) is activated and deactivated by double-pressing the left side of the helmet.

Wireless charge

In addition to the traditional USB C-type charging kit, the case can be easily charged on a wireless charging mat or comfortably with the reverse charge function of a Huawei smartphone.

Earbud
