

# Bluetooth® Speaker Symphony Luminous with Essential Oils Diffuser Synergy Alizée Aromasound

## Descriptif produit

**Enjoy a Bluetooth® speaker, an essential oil diffuser and a subdued lighting atmosphere with Symphony: all these functions in a single aesthetic, compact and portable product thanks to its rechargeable battery.**

Symphony uses ultrasonic diffusion by cold misting. This technique, completely safe, preserves the fragile molecules of essential oils and their benefits.

Symphony also acts as a humidifier since it incorporates a water tank. You can add only water to humidify your room, or add about 6 drops of essential oils for a full tank. Very easy to use, Symphony will allow you to create a warm atmosphere wherever you are in your home. Ideal for creating a soft relaxing bubble!

### Humidification function

In the tank, fill the water up to the indicator. To humidify a room, you don't need to add essential oils. Diffusion will suffice.

### Light halo function

The light can be activated independently of the olfactory or sound diffusion. You can therefore use the Symphony as a nightlight for a child's room as well.

### Bluetooth speaker function

With or without use of the Aromasound application available for free, you can listen to all your music, from your phone or streaming applications such as Spotify or Deezer. Symphony is controlled by a built-in programmer or by the iOS / Android Aromasound app.

In your box, find an Alyzé synergy designed to purify the air. It combines sweet orange and ravintsara as well as arvensis mint and Scots pine for their anti-infectious and bactericidal properties. Organic Scots pine opens the way for these essential oils with its decongestant balsamic properties.

### Compatible Bluetooth®

**Color : Synergy Alizée**

**Ref : SYMPHONEYWH**

**EAN : 3499550374483**

**Pack contents :** Bluetooth® Speaker Symphony Luminous with Essential Oils Diffuser + Oil + Charging cable + User Guide/Security/Warranty
