

Descriptif produit

Protect your mobile from daily damage with this practical silicone case.

Extremely thin and light in design, perfectly imitating the shapes of your mobile.

With a magnetic system, this case is perfectly compatible with a magnetic car holder (not included). Thus, during your trips by car, you can use it to take advantage of the GPS and all the features of your smartphone.

The case combines rigidity and flexibility thanks to its polycarbonate and silicone coating. It also has a nice soft touch finish to give you a better grip.

Solid, it is more resistant to daily bad weather, always leaving your smartphone intact in the event of light bumps or scratches.

Its soft-touch surface offers excellent grip and a pleasant grip.
