

## Descriptif produit

**Overflowing film? Say no more. Never waste another moment with the Polaroid Lab. This unique system transforms digital moments from your phone into real Polaroid photographs that you can hold, store, or share. An instant formula for timeless Polaroid photography.**

### Behind the Polaroid laboratory

More than 80 years of Polaroid innovation at your fingertips. The Polaroid lab acts as an office darkroom to transform your digital photographs into Polaroid images using 100% real film chemistry. A truly analog process designed for the digital age to turn your pixels into evidence.

### Phone to Polaroid

The Polaroid Lab uses a 3-lens system to project the image of your phone screen onto Polaroid film to create a physical moment you can cherish forever.

### Simplified collages

Create collages more easily with the Polaroid Originals application. Log in to the lab and transform an image into a collage of two, four, six or nine frames in the composition of your choice.

### Bring your moments to life with RA

Switch from digital to analogue and vice versa with augmented reality. Take a still image and embed a short movie inside, ready to be viewed by you or your friends with the Polaroid Originals application.

### Rechargeable battery

Bring every moment to life smoothly with a rechargeable battery and USB charging cable.

### i-Type film

Uses our battery-free i-Type film, which is easier on the wallet.
