

Bluetooth® Gaming Controller Orange Black Nacon

Descriptif produit

A wireless controller that meets all your needs in terms of gameplay and ergonomics

Play over 200 video games

The Nacon Gaming Bluetooth controller has been designed to accompany you in your game play whether on your TV via the TV set-top box or on your PC

Wireless Bluetooth controller that can be connected to a smartphone

It's wireless and runs on a rechargeable battery (USB charging cable included), has Bluetooth 4.0 and a smartphone holder to play on your mobile

Grip on each wrist for a better grip

This Nacon gamepad allows you to experience intense games. The improved design makes it very comfortable to hold. It has progressive triggers, analogue sticks and vibrates when the excitement is high.

Receiver / dongle (RF/Radio Frequency) for wireless connection to a box or PC

You can play wirelessly thanks to its 10-metre range and its dongle. Moving house?

You can now carry the dongle in its small storage box so you don't lose it. And if you lose it anyway, you can plug in a cable to play.

Asymmetrical joysticks

The controller features an asymmetrical joystick layout and ergonomics designed to give gamers an alternative experience

Compatible with Android and iPhone applications that support controllers
