

Influence Kit L 20cm White LED Lights with 1.6m tripod Bigben

Descriptif produit

This multi-purpose kit is the must for your vlogging sessions but also for your videoconferences in telecommuting

A multi-purpose accessory: Vlogging and Teleworking

The vlogging kit is the essential accessory when it comes to photography or video. But it will also make you look good during your meetings or video interviews. Indeed, the luminous ring improves the brightness of your renderings, by removing the shadow areas. You can put it directly on your desk, and make your video calls from your smartphone. It will allow you to easily create and capture beautiful photos and videos to develop your social networks, your Twitch channel or simply ensure quality lighting for your video conferences.

Phone stand

The smartphone stand is portable and lightweight. It is removable and supports both horizontal and vertical use. You can adjust the angle of the phone clip, more convenient and flexible. The 360° mount will allow you to film yourself in portrait or landscape mode.

3 levels of LED intensity

Adjust the brightness of your videos, using the right intensity and adapt to each situation. The 3 levels of brightness are perfect for shooting videos or photos in any situation, even in the darkest rooms in your home. The Ring Light provides extra illumination for photography and video when you encounter low light conditions.

Adjustable Tripod

Put your camera wherever you want with the tripod, which fits on all your furniture. With its compact size, you can place it directly on your desk without being encumbered and participate in a video conference with your smartphone, while browsing on your computer. The tripod is adjustable, allowing you to tilt the light to illuminate any direction you want.

Control buttons

This light ring ensures convenient operation, thanks to the remote control with control buttons built into the cable. With a simple push of the button, you can turn the light on/off, change the lighting, choose the color temperature, and much more.

Easy to use

Powered by an integrated USB cable, the use of this ring light is simple and intuitive. You just have to place your phone between its arms and then connect the cable to an external USB source. This ring light then turns on.
