

iPhone 12 / 12 Pro Case Premium Leather Red Beetlecase

Descriptif produit

An elegant and convenient leather protection for your smartphone

Our leather case perfectly conforms to the curves of your smartphone without devaluing its design.

Like a second skin, our leather is rolled up, so it covers all of your protection.

The embossed leather at the location of the side buttons gives them a clean line without altering their functions.

Our full grain leathers are selected and treated in order to obtain a patinated appearance over time while respecting the appearance of the colors.

Our signature microfiber perfectly represents the strength and elegance of our Beetlecase brand while protecting the back of your phone.

The Beetlecase beetle is discreetly represented on the outside of your case.
