

## Bluetooth® Speaker Luminous Sony Bigben Audio

### Descriptif produit

**For PlayStation's 25th anniversary, Bigben has created this rechargeable musical light cube. Under PlayStation licence, this Bluetooth® speaker is made for all lovers of the console and the Sony universe.**

Sober, sleek and modern design

Illuminated speaker

9 colours are available, either static, in rhythm with the music or in automatic scrolling. This cube is therefore in the colours of the old PlayStation. These light modes can be controlled with the remote control.

For console fans

This speaker integrates the codes of the Sony PlayStation, each side of this speaker is marked with one of the 4 symbols of the mythical controller (round square, cross, triangle) as well as the PlayStation logo on the top.

Bluetooth

Pairing is simple, just activate Bluetooth® from the supplied remote control and connect to it. The PS200 makes a noise when connected (as well as when disconnected). As soon as you are connected to the speaker, its battery status is visible on your smartphone.

Remote control

It perfectly accompanies the speaker for a more comfortable use. Thanks to this remote control, you can manage the music, the connection between the device and the speaker, but also the colour, intensity, brightness and even the rhythm of the lighting.

Total music power 15 Watts

The sound of the PS200 goes up high and is perfect to liven up your parties.

8 hours of autonomy

The PS200 has a 2200 mAh rechargeable battery that has a possible autonomy of up to 8 hours.

Nomadic and portable battery

Take this mobile speaker with you wherever you go thanks to its light weight and non-slip feet for easy outdoor installation.

USB port (MP3)

Auxiliary input 3.5mm

Rechargeable battery via micro USB
