

## Samsung SmartTag Smart Object Tracker Galaxy Beige

### Samsung

#### Descriptif produit

**Need to keep an eye on something? Attach a Galaxy SmartTag to those precious things in life.**

**Search**  
You can no longer find your object? Launch the application to find out its last location. Retracing your steps becomes child's play.

**Relax**  
Here it is at last! Thanks to the Galaxy SmartTags, finding lost objects is simple and smart.

**Finding the important things in your life**  
Bluetooth powered Galaxy SmartTags attach easily to keys, bags, earbud cases and more. If you think your lost item is nearby, just tap the ring button on your phone and follow the familiar sound of your ringtone at a volume you control.

**Locate your things from far away**  
Your tagged item is out of range? No problem! Even when offline, the Galaxy Find Network can use scanned data to find it for you privately. And it's easy to scroll through a history of where the tag's been to retrace it. You can also use other devices you own to locate your items.
