

Smart Camera A1 Full HD 4MP Motorized Indoor White IMOU

Descriptif produit

The A1 camera provides essential protection when you are away from home.

MP Full HD QHD video with H.265 compression
The 4MP sensor and advanced IR algorithms deliver clear video day or night.
Advanced H.265 compression reduces network bandwidth and storage usage by up to 50% for the same video quality.

Human Detection

Powerful image processing technology quickly spots human targets in images and immediately sends a notification to your smartphone so you can keep an eye on what matters, without annoying false alarms.

Pan from 0° to 355° and tilt from 0° to 90

Rotate the camera to see every corner of your home. Full range means no blind spots.

Privacy mode

One click in the Imou Life application to hide the camera lens, protecting your privacy when you are at home.

Smart tracking

The camera automatically tracks and records activity when motion is detected.

Privacy mode

One click on the mobile app hides the camera lens to protect your privacy when you are at home.

Built-in siren

The built-in siren helps to scare off unwanted visitors.

Abnormal sound alarm

Sends instant alerts to your smartphone when baby crying or other abnormal sounds are detected to keep you informed wherever you are about what's going on in your home.

Two-way Talk

The built-in speaker and microphone with echo cancellation allows you to interact with pets and family, or dissuade unwelcome guests.

24/7 protection

Night vision mode turns on and off automatically. Advanced IR algorithms produce a clear image even in total darkness.

Diversified Storage

Video is securely stored and accessed through a Micro SD card, NVR or Imou Cloud storage. Cue 2 supports 24/7 continuous recording.

Imou Cloud

Imou Cloud makes your life easier with alarm notifications, live video streaming, and one-touch firmware updates.
