# 25W USB C PD Power Delivery Car Charger Black - Lifetime Warranty Force Power Lite

## Descriptif produit

### High performance Lifetime Warranty products. Made from 100% recycled plastic.

The Force Power home charger is Power Delivery compatible and guarantees ultra-fast charging to accompany you efficiently in your daily life.

#### Power Delivery: unrivalled charging speed

The efficiency of its Power Delivery compatible technology guarantees a much faster charging speed than the traditional protocol which requires hours. Its USB C port provides a maximum charge of 25W to charge your device up to 70% faster than standard 5W technology\*.

#### One powerful charger for all your devices

No more multiple chargers at home and in the office: choose one efficient charger for all types of smartphones and tablets !

#### Extremely fast charging time

This charger offers a high performance solution to power all your iOS (Apple) and Android (Google, Samsung, Xiaomi, Oppo...) devices. Charge up to 50% of the battery of your iPhone 8 or later model or your Samsung S20 or later model in only 30 minutes\*!

#### Smart and secure

The charger automatically detects the required fast charging current: handy if you are in a hurry to boost your battery in a short time! This innovative technology avoids the risk of overheating and gives the battery a longer life. When the battery is full, the power supply is switched off to prevent the battery from running continuously.

#### Power Delivery Compatibility

To benefit from the optimal charging speed of a Power Delivery charger, you need a Power Delivery compatible device or Android, a USB Type-C to USB Type-C or Lightning to USB Type-C charging cable and a USB-PD compatible charger.

#### Stylish finish

Its metallic finish adds a touch of elegance to the design.

#### Lifetime warranty

Force Power replaces your charging accessory with a new one in case it gets damaged!

#### Eco-designed with 100% recycled plastic

This product is made from recycled plastic to reduce the use of single-use plastics and support the circular economy.

\*Charging time depends on the devices charging capacity, temperature, battery wear, power output of the charger and the charge level of the device.
