

LED Lamp with Hand strap Pac-Man Scared Orange Ghost 6cm Bigben Audio

Descriptif produit

This LED lamp is an original product developed in partnership with Pac-Man Company. Collect the famous ghosts chasing Pac-Man !

The Pac-Man video game, which was released in 1980 in Japan, consisted of moving a yellow circular diagram in a maze and making it eat all the pac-gums while avoiding being hit by ghosts. It is now a landmark in video game history, and is part of the collections of the prestigious Smithsonian Institution in Washington, and the Museum of Modern Art in New York.

This small luminous figurine connected to a strap represents one of Pac-Man's enemy multicolored ghosts, in this case Clyde, the orange. Each ghost has its own behavior: Clyde feigns indifference. From time to time, he chooses a direction at random.

Wireless and nomadic

It measures 6 centimeters and can be easily carried everywhere thanks to its wrist strap (included).

2 light effects

You can turn this figurine on and off at will, and choose your favorite light effect: rapid or gradual color change

This mini LED lamp will not leave you lost in the dark!
