Descriptif produit

Reinforced protection to be customized

Reinforced protection on the sides

The frame cover respects the design of your device while providing reinforced impact protection on the sides.

Full protection for your phone

Easy to install, the case protects your entire phone, even the back of the phone and its camera, thanks to its raised edges and the included protective plate that helps protect the back of your phone from scratches.

Mirror or transparent

The dial is provided with two protective plates (mirror or transparent) to change according to your desires!

Mirror : perfect for those who want to make sure that their hair or make-up is perfect all day long !

Transparent: ideal for those who want to keep the design and aesthetics of the mobile while offering protection!

Adapted design

The Frame Cover gives free access to all the features of the phone and the connectors.
