

Doro 8100 / 8110 / 8200 / 8210 / 8220 Flat Tempered glass Screen protectors Doro

Descriptif produit

The essential accessory to effectively watch over your mobile screen

High resistance to scratches and impacts: The 9H hardness standard of tempered glass makes it the most resistant screen protector against scratches. Grade 9H is at the highest level of hardness before diamond (10H) on a scale that defines resistance to touch, pressure and impact.

Smooth touch and finesse: A sensitivity that greatly facilitates the use and allows you to take full advantage of all the features of your device.

Real fuse against the breakage of your screen: Its role is to break by absorbing the shock to protect the screen of your device.

High-definition: An optimal optical transmission level and a minimum reflection rate allow the maintenance of the quality of the light image and its colors.

Anti-fingerprints: Polymer-based surface treatment against fingerprints and the most frequent marks.

This tempered glass is perfect for your mobile, while leaving enough room to use it with most cases.
