

Descriptif produit

Doro Watch, take control of your health

To stay active safely.

Active tracker: running, walking, cycling, fitness, steps, distance

Health data: heart rate, oxygen saturation, calories, sleep

Notifications: calls, messages, alarm, calendar, activity reminder, goal achieved

Designed for simplicity

Intuitive interface: very easy to use with one function per screen

Assistance button: in case of emergency to alert loved ones in one click. The watch must be connected to a Doro8100 and Plus smartphone.

IP68 protection: water and splash resistant.

Comfortable to wear: ergonomic design, lightweight, the watch can be worn every day, day and night

Charging base included: simplified charging with a magnetic base. Fully charged in less than 2 hours for approximately 1 week of use.

Doro DNA plus

Easy to read: large, bright, high-contrast display and large icons for easy reading

Easy to use: connected to the Doro Companion application, the watch offers a start-up guide and online help for quick and easy operation

Peace of mind: a connected watch that offers more security to alert loved ones in case of emergency. Help button compatible with Doro 8100 and Plus smartphones.

Comprehensive daily monitoring

Download the Doro Companion application to your smartphone to track your activity (steps and distance) and health data (sleep, heart rate and oxygen).

The app offers many additional features, such as dial customisation, notification settings, daily and detailed tracking. And don't forget the online help for all your questions.
