

USB 3.2 + USB C Key 256GB OTG Metal Silver PNY

Descriptif produit

Store and transfer your images, music and documents 30 times faster!

PNY's DUO LINK Type-C USB 3.2 Flash Drive bridges the gap between mobile devices and desktop computers, making it the ideal mobile storage solution for managing your files on the go.

The DUO LINK is the ideal tool for freeing up space on Type-C equipped mobile devices by allowing users to move content such as photos, videos, music and more from their smartphones and tablets to the drive, so they never miss an opportunity to capture content due to memory constraints.

With read speeds of up to 200MB/s and transfer speeds up to 30 times faster than USB 2.0, transferring content from the drive to a computer is quick and easy. Users can create a wide range of content such as videos, social media posts or simply back up their files to a more permanent storage device.

With a USB 3.2 Type-C connector compatible with Android Type-C mobile devices, latest generation PC & Mac laptops and desktops, and a USB 3.2 Type-A connector for earlier generation computers, the potential for content creation and file management becomes almost limitless.

Compatible USB A+C

Color : Metal Silver

Material : PVC

Ref : PNYFDI256DULINKTYC

EAN : 0751492681726

Pack contents : USB 3.2 + USB C Key 256GB OTG + User Guide/Security/Warranty
