Have health under control

FW55 Smartwatch monitors your heartbeat, blood pressure and oxygenation. Monitoring precision will allow you to gain reliable results. You can analyze your results in an intuitive app.

Take care of your heartbeat

Intelligent and precise detector monitors your heartbeat 24h/d, wherever you are and whatever you do. But it's advantages don't end here. Smartwatch will show you how to analyze your results! Get to know it's abilities and enjoy health.

Control oxygen

Blood hypoxia may cause irreversible brain and neural system damage. Keep this parameter under control, even during sleep.

Measure blood pressure

FW55 Aurum Pro smartwatch is your personal pressure monitor and a notepad at once. Monitor blood pressure and read results directly on screen, and measurements history will be saved in the app.

Monitor sleep

Understand your sleep. Monitor lenght and effectiveness of resting - thanks to deep and shallow sleep analysis - and frequency of waking. Thanks to the app you will know your sleep history. It's a good way to eliminate the source of long, subconscious stress.

Use longer

6-10 days of work during intensive, everyday use and up to 30 days of standby!

Everything thanks to low energy usage and high battery capacity. Travel at will!

Maxcom FW55 Aurum Pro smartwatch will accompany you for many days without need for charging.

Stay updated

Connecting to the app will allow the synchronization of smartwatch with phone in real time. Thanks to that you will not miss any important informations! Stay updated with apps notifications, news, alerts or calls from people, who may need you.

incoming call | message notification | activity reminder | alert reminder | remote shutter

And have world at reach!

Check Facebook, Twitter or Instagram news. Synchronized vibrating alert will let you know about news, and you will read everything without need for reaching for phone.

Don't limit yourself (IP67)

IP67 waterproof class meets the requirements of everyday life and sport in terms of water and dust proofness. Sweat or rain drops won't interrupt you while using smartwatch's functions.
