

Octopus USB A / microUSB & USB C & Lightning Cable 2.1A 10cm Black Xoopar

Descriptif produit

High-resistance protection that enhances your mobile while guaranteeing its safety - Lifetime warranty

Multi-connector cable

The Octopus Metallic multi-connector cable is a hub with the 4 most used connectors nowadays : USB-A, Type-C, Lightning, Micro USB

A design in the shape of an octopus

This convenient multiconnector cable will follow you in all your daily life, travels, car and will also find its place at home.

A key ring format

Its key ring hole allows you to hang it on your keys so you never forget it.

Plus: we reviewed the packaging of the Octopus to offer you a reusable bag. The cartonette becomes a travel label to your suitcase and the bag can be used to carry your travel documents, your charger and your phone or anything that will make you happy! Xoopar pass in eco-friendly fashion!

Biodegradable

The cable part is made of recycled plastic bottles, additive BIOSPHERE is mixed to the plastic case that makes ABS biodegradable in only 5 years (compared to 450 for a conventional plastic).
