

## Smart Watch FW25 Arsen Pro Waterproof Black Maxcom

### Descriptif produit

**Arsen Pro combines exceptional design and advanced technology that you'll appreciate in every active moment of your day.**

#### Wide HD display

The HD display brings colors to life, and the stylish, narrow frame adds elegance. Now you can enjoy impressive content quality on your smartwatch.

#### Dials for every occasion

Arsen Pro offers over a hundred different clock dials that you can match to the occasion or your style. You can choose minimalist, extravagant, colorful, or subdued patterns, or even use your own graphics or photos from your phone's gallery. Your imagination is the only limit.

#### Hands-free calls

The smartwatch allows you to receive and make calls even during workouts, cooking, or shopping. Staying in touch with loved ones has never been easier.

#### Active lifestyle support

Don't miss a single important message and stay connected at every busy moment of your day. Connect Arsen Pro to your phone's app and receive notifications without having to take out your smartphone.

#### Your health in your hands

##### Heart rate 24/7

The watch monitors your heart rate, and the results are reliable regardless of your skin tone or color. Heart rate is a crucial health parameter, but it's not just that: pulse control helps you achieve effective training and reach your fitness goals.

##### Blood pressure in check

Monitor your blood pressure and oxygen levels whenever you feel the need. The results are automatically saved in a dedicated app, and the watch will notify you of potential health issues\*.

\*The smartwatch is not a medical device, and the results obtained cannot be considered medical measurements.

#### Motivation to move

Arsen Pro tracks your activity and motivates you to exercise when you've been inactive for too long. It also counts your steps and monitors calories burned during specific sports activities.

#### Sleep quality monitoring

The smartwatch analyzes your sleep and helps you understand the reasons for feeling less energetic or drowsy. Sleep quality affects your mood and health - now you can take care of it.

#### The right rhythm

Change songs, adjust the volume, and get carried away by your favorite sounds wherever you are - all from your smartwatch.

#### Always ready

Regardless of the conditions, Arsen Pro is ready to go. Its IP67 water resistance rating
