

AirPods Pro 2 True Wireless Earphones In-Ear MagSafe wireless charging box White Apple

Descriptif produit

AirPods Pro have been redesigned to give you even richer sound.

Sound, the new definition

AirPods Pro (2nd generation) with MagSafe Charging Case (USB-C) offer up to twice as much Active Noise Reduction as the previous generation, with Transparency mode allowing you to hear the world around you. All-new Adaptive Audio dynamically adjusts noise control to suit your environment. Conversation Detection reduces the volume of current listening and increases the sound of the voices of people in front of you when you interact with them. A single charge provides up to 6 hours of autonomy. And the Touch Control lets you adjust the volume with a simple gesture. As for the MagSafe Charging Case, with its Precise Location function, built-in speaker and wrist strap slot, it has everything to surprise you.

Superior audio quality

The improved H2 chip offers smarter noise reduction and three-dimensional sound. Adaptive equalisation adjusts music to your ears in real time to deliver crystal-clear highs and deep, rich bass.

Intelligent sound

Active Noise Reduction neutralises twice as much unwanted noise, so nothing interrupts your listening when you're on the move or need to concentrate. Transparency mode reduces and limits the intensity of deafening noise at a rate of 48,000 times per second, so you can better hear what's going on around you. Adaptive Audio combines the Transparency and Active Noise Reduction modes to adjust the sound experience to suit your environment.

Personalised listening

A listening experience that's unique to you. Choose from four sizes of soft silicone ear tips (XS, S, M, L) for unrivalled comfort and sound isolation. Custom Volume adjusts the sound based on your changing preferences over time and the environment you're in. Conversation Detection automatically reduces the volume of current listening, increases the volume of voices in front of you and reduces background noise. Personalised Spatial Audio with Dynamic Head Motion Tracking gives you a tailored listening experience by placing sound elements in the space around you with great precision. Adaptive equalisation adjusts the music to your ears to give you detailed, harmonious sound, every time.

Improved battery life

Enjoy up to 6 hours of listening time on a single charge, and up to 30 hours with the MagSafe Charging Case. Charge the MagSafe Charging Case with an Apple Watch or MagSafe charger. You can also use a USB-C connector or a Qi-certified charger.

Powerful charging case

The MagSafe Charging Case is equipped with the U1 chip and Precise Location, which helps you find it. And if you're nearby and it's still not found, you can play a sound through its built-in speaker. A wrist strap slot lets you attach the device to your bag, so it's always close at hand. Both AirPods Pro and the MagSafe Charging Case are built to withstand the elements, with IP54-rated resistance to dust, perspiration and water.

More magical than ever

Compatible Bluetooth®

Color : White

Ref : MTJV3ZM/A

EAN : 0195949052637

Pack contents : True Wireless Earphones In-Ear MagSafe wireless charging box + Case charging cable + USB C/Lighting charging cable + 4 sizes of ear tips (XS, S, M, L) + User Guide/Security/Warranty

AirPods Pro (2nd generation) with MagSafe Charging Case (USB-C) give you an even more natural experience than the original. Touch Control lets you manage playback functions directly from the stem and adjust the volume with a light swipe up or down. Ask Siri to read you important alerts and messages as they arrive with Notification Announcement. Easily share a song or show between two pairs of AirPods with Audio Sharing. And, as always, AirPods Pro connect magically to your iPhone or Apple Watch, and sound switches seamlessly between your favourite Apple devices.
