Experience fighting games like never before

Reach your highest level

The Daija Arcade Stick has been designed in partnership with Kayane, a leading figure in e-sport and holder of the world record for the most podium finishes by a professional player in fighting game competitions at just 20 years of age.

Nothing has been left to chance in the design of this officially licensed Playstation® model capable of delivering a level of eSport performance. The judicious placement of buttons from a brand that is a reference among professional gamers and the creation of intuitive user software to set them up simply and quickly offer quality, stability and incredible precision.

The presence of a textured wrist rest, two different joysticks and a lock function to prevent mishandling all add to the overall comfort of use, taking you to your highest possible level of play.

Technical features

The joysticks and action buttons are made by SANWA: a benchmark for professional fighting game players and a guarantee of excellent quality and durability.

The buttons are fully configurable using NACON Daija Arcade Stick software, available for PC and Mac. You can easily create your own game profiles using ergonomic software that's extremely intuitive to use.

Activate the lock function to prevent any tampering and avoid interrupting your most intense battles.

The textured wrist rest holds you firmly and comfortably to maintain your optimum level of play for as long as possible.

Choose from two different joystick knobs to find the right solution for every situation.

3.5 jack for accessing audio and chat with your wired headset.

Decide how you want your arcade stick to look from one of the three front panel designs included, or create your own using the template available online on our website.

All in one: everything you need is included with the arcade stick: a detachable 3m USB-A to USB-C cable, two knobs and two tools to customise your arcade stick quickly and easily.
