

## Bluetooth® Speaker Xtreme 4 100W Waterproof Blue JBL

### Descriptif produit

#### Superior JBL pro sound

Massive JBL pro sound at the highest level

Two woofers, two powerful drivers and dual-pumped JBL bass radiators effortlessly deliver dynamic immersive sound with deep, detailed bass. Immerse yourself in music wherever you go.

24-hour battery life plus 6 hours with Playtime Boost

Your listening adventures can last all day. Take the JBL Xtreme 4 with you from room to room, and outside when you host a garden party or beach party. And with 24 hours of battery life, you can listen to music until sunset and then sunrise, before needing to recharge. Simply press Playtime Boost to extend battery life, adding up to 6 hours to your battery. It adjusts and optimizes performance for more powerful, cleaner sound.

Practical shoulder strap

The speaker can be worn on the shoulder or adjusted as a shoulder strap, whatever your style or mood.

Sound boost AI

AI Sound Boost analyzes the incoming signal in real time while simultaneously using an AI algorithm to predict speaker movement and power response. It pushes the speaker to its maximum capacity, fully exploiting the dynamic range for better, more powerful sound. It also reduces distortion, even at high volume, maximizing bass output and overall sound.

Water and dust resistant

The JBL Xtreme 4's IP67 water- and dust-resistant rating ensures that this portable speaker can adapt to almost any environment, from a pool party to a seaside picnic.

Connecting multiple speakers

Want even more JBL Pro sound? Stereo pair of two Xtreme 4 loudspeakers for extended sound. For your biggest parties, multiple JBL speakers can be connected wirelessly using Auracast. You can also party with JBL PartyBoost by using the JBL mobile app to pair the Xtreme 4 with other JBL PartyBoost-compatible speakers.

Charge your devices: built-in portable charger

Enjoy the good times without interruption. The JBL Xtreme 4's built-in portable charger lets you recharge your devices without stopping the music.

Replaceable battery

Want to get even more out of your speaker? Replace the rechargeable battery in three steps, and your JBL Xtreme 4 will be back to full power. Replaceable battery sold separately.

Quick charge

Need a little boost to keep the party going? Ten minutes on the charger gives you two more hours of music.

Made in part from recycled materials

The JBL Xtreme 4 speaker contains post-consumer recycled plastic and fabric for the speaker grille. It is also packaged in FSC-certified paper, printed with soy ink.
