

Bluetooth® Micro chaîne 60W FM CD/MP3 Turntable Wood Bigben Audio

Descriptif produit

An elegant stereo system for all your media

Powerful stereo system

The Thomson CD MP3 radio combo delivers 60W of total musical power thanks to its stereo system. Ideal for filling your room with clear, dynamic sound and enjoying your music to the full.

Fast connectivity

Enjoy a fast, stable connection with Bluetooth® 5.0 technology. Easily stream your favorite tunes from your smartphone, tablet or other compatible device.

Personalized sound

Adjust the equalizer settings according to your preferences to achieve optimum sound for different music styles.

FM Radio with 50 Memory Stations

Easily find your favorite stations and store up to 50 FM stations for quick access. Time display is also included, making this device even more practical for everyday use.

Multiple listening options

Listen to your favorite CDs or play MP3 files from a USB stick. The CD player and USB port (MP3) expand your listening options.

AUX-IN and RCA output for more connectivity

Connect other audio devices via the 3.5 mm AUX-IN input (cable included) or connect to an external audio system via the RCA output for an even more immersive sound experience.

Quality vinyl turntable with recording

This combo is equipped with a belt-driven turntable and Audio-Technica AT3600L pickup, offering excellent playback quality for your 33/45 rpm vinyl records. Thanks to the recording function, you can transfer your vinyl to a USB stick in MP3 format, so you can take your favorite tunes with you wherever you go.

Complete Vinyl Turntable features

The turntable features an Auto-Stop function at the end of playback (ON/OFF), an adjustable rotation speed with pitch control and a dust cover to protect your vinyl.

Convenient operation

Easily manage all functions with the included remote control. The combo is powered via a 230V mains socket, guaranteeing simple, reliable operation.
