Elegant and innovative jewelry smartwatch

For every occasion, for Her and Him
Stylish, elegant design combined with the highest quality materials and advanced functions make it impossible to ignore this smartwatch. The universal shape, various straps and available color variants make the Vanad Pro an ideal model for women and men, for business meetings and sports activities.

1.3 inch Amoled screen

Polished and curved 2.5D glass set in a narrow frame together with a metal envelope creates an attractive, timeless form, which is why Vanad Pro looks extremely elegant. The protective glass in the box will additionally protect the screen against possible damage.

High resolution reflects depth and strong color saturation, and the displayed graphics and photos give a three-dimensional impression.

Classic look

Do you feel sentimental about the traditional form of a watch? Vanad Pro offers advanced smartwatch functions with a classic clock face look. The time may be displayed continuously on a blank screen. Choose for yourself whether your clock should be analog or digital. Check the time whenever you need to.

Convenient rotary button

Change menu styles and watch faces quickly and conveniently. Play with color and form and match the appearance of your watch to your mood or style.

Perfect fit

The slim design of the watch allows it to perfectly adapt to the shape of your wrist. Feel the comfort of wearing it and ensure that the watch does not interfere with your daily activities.

Answer calls and read messages

Make calls and read messages without having to take out your phone. Make appointments with friends and stay in touch with employees even at the most dynamic moment of your day!

Stay fit!

More than twenty sports modes guarantee that you will definitely find something for yourself. Monitor your steps every day and compare your achievements. Vanad Pro, without your intervention, will automatically count calories burned, kilometers traveled and your heart rate.

A range of stylish dials

Modify the look of your watch face however you want! Let yourself be carried away by emotions, present your hobbies or adapt your appearance to the situation. Choose from many extremely original designs or upload your own graphics from your phone to show your unique character.

Different menu styles

Play with the appearance of your screen by dynamically changing the menu style. There's a lot to choose from... You can choose from as many as ten styles, and

Guide/Security/Warranty

switching between them is quick and easy.

Your personal assistant

The situation does not always allow you to read messages, make a call or set an alarm. Don't put off important things for later and don't worry that you'll forget something in a moment.

Health tracker

Keep your health in check and monitor your oxygen content, blood pressure and heart rate. Vanad Pro has modern optical sensors that detect any physical activity based on accelerated heart rate. Each such moment will be automatically recorded in the daily report. View and compare your results and analyze charts yourself in an easy-to-use application.

*The smartwatch is not a medical product and the results obtained cannot be treated as medical measurements.

Sleep monitor

Monitor your daily rest. The intelligent monitor will analyze the quality of your sleep, including the duration of the deep and light phases. Sleep is health – plan and optimize it!

IP68 tightness

The IP68 tightness class will ensure that you can use the smartwatch without any problems during rainy weather or high air humidity, and it is not afraid of splashes.

Vanad Pro has many features designed specifically for women:

- Women's health monitor
- Menstrual cycle monitor
- Pregnancy preparation
- Pregnancy calendar

Control your menstrual cycle and don't be surprised thanks to automatic notifications.

Enjoy this special time in your life and reduce stress. The smartwatch will help you prepare for pregnancy and then control its duration. Set reminders for check-ups and count down the days until the next trimesters.

Inductive charging

The advanced Vanad Pro smartwatch provides fast, inductive charging and exceptionally long battery life (up to 21 days).
