

Descriptif produit

Smartwatch that sets you apart from the crowd.

The Titan Valkiria smartwatch is designed for women who are not afraid to reach their goals. This advanced watch inspires to discover new possibilities, explore and enjoy free time and moments just for yourself. Femininity doesn't require heavy makeup and high heels - it can manifest itself with naturality, passion and stylish comfort.

Gorilla glass 3

Valkiria can accompany you in any conditions, without fear of cracking or scratching the screen. The reinforced Gorilla Glass 3 stands out with an impressive resistance to damage.

Quality full of style

1,3-inch AMOLED display with perfect borders ensures brilliant content readability, saturated colors and sharp contrast. The Always On Display option (AOD) enables displaying the clock on a turned off display, which allows keeping the classic watch function.

Higher level of battery life

Titan Valkiria needs 2 hours to fully charge its battery and work freely for a few next days. Smartwatch will last for up to 3 days with AOD, up to 12 days of everyday use or up to 50 days of standby.

Voice call function, notifications system With Valkiria you can stay in touch with world wherever you are and whatever you are doing. The voice call function allows making and receiving calls without reaching for phone. You can also read system or social media notifications and incoming messages. It is your choice - if you want, you can turn the mentioned settings off and take a rest from communication noise.

Power of your passion

Titan is a collection of watches adapted to training in any conditions, also the extreme ones, such as mountain climbing or kayaking. Valkiria offers 70 sport modes, including intelligent recognition of 6 basic disciplines.

You will find, among others, yoga and cardio training. The SWOLF function (swimming style recognition) awaits for water sports enthusiasts. Data such as travelled distance, burned calories or heart rate are automatically saved in dedicated app.

Heart rate 24/7

Valkiria is equipped with intelligent health management system. It monitors heart rate and oxygenation continuously and has a system of alerts, which will alert you when your parameters will start to deviate from the norm. The watch also measures blood pressure and can evaluate your stress level. From a feminine point of view, the menstrual cycle monitor and due date calendar functions are very useful.

Compromise resistant

It is the first ever outdoor smartwatch designed with women in mind, that has a housing made of high quality plastic, bezel of aluminum and bottom of stainless steel. Thanks to it, the watch is slim and incredibly light, but also resistant to damage.

Military certificates

Compatible Bluetooth®
