

### Descriptif produit

#### For characterful men

Iron R combines elegance and distinctive style with the new-tech. This smartwatch is designed for demanding users. Its timeless design and two different premium straps included make it perfect for both business meetings and intense workouts.

#### 1.43-inch AMOLED screen

Equipped with a 1.43-inch AMOLED screen, Iron R offers vivid colors and exceptional image depth. The polished 2.5D glass set in a metal frame gives the smartwatch an elegant look.

#### Comfortable design

Iron R features a robust zinc alloy construction that fits perfectly on a man's wrist. The brushed steel highlights the watch's unique character. The set includes a steel bracelet and a premium quality magnetic silicone strap. A tool is included to make shortening the bracelet easier.

#### Traditional look, modern inside

For those who appreciate classic style, Iron R offers a traditional watch face with the option to choose between analog and digital screens. The Always-on Display mode allows you to check the time at any moment, just like a traditional watch.

#### Dynamic menu, wide range of watch faces

Change the menu layout and watch faces with a convenient rotating button. Several available menu styles allow for quick and easy customization of the interface to suit your preferences. A database of over 100 free watch faces and the ability to set an image from your phone gallery lets you express your style and personality.

#### Your assistant

Iron R supports you in your daily tasks, allowing you to set reminders, alarms, and quickly respond to messages and calls, even during the busiest moments of the day.

#### Calls and messages

Receive calls and read messages and social media notifications without reaching for your phone. Iron R enables contact in any situation, keeping you always up to date.

#### Advanced health features

Monitor your health by tracking your blood oxygen level, blood pressure, and heart rate using advanced optical sensors. Iron R can measure health parameters 24/7 and automatically save the results in an intuitive app.

#### Fast charging

Iron R offers fast charging and a 300mAh battery, allowing up to 14 days of operation on a single charge.

#### Sleep analysis

Sleep healthy with Iron R, which analyzes the quality and the duration of deep and light phases. Optimize your rest to enjoy better well-being every day.

#### Sport modes

With over 70 sport modes, Iron R easily adapts to your lifestyle. Track the number of
