

## Samsung Galaxy S25 Ultra Case FlipSuit with dynamic wallpaper White Samsung

### Descriptif produit

#### The customisable case with dynamic screen background

Automatic synchronisation of the external wallpaper when an NFC card is inserted  
This case is equipped with NFC (Near Field Communication) technology that automatically synchronises your smartphone's external wallpaper. When you insert a specific NFC card into the shell, the wallpaper on your phone instantly changes to reflect the contents of the card. This gives you a unique and dynamic way to personalise your device.

Customisation possible with different NFC cards and Keith Haring Smiley collections.  
The case is compatible with a range of NFC cards that allow advanced personalisation of your phone's wallpaper thanks to the various NFC cards and Keith Haring Smiley collections.

Immersive, animated wallpapers  
NFC cards unlock immersive and animated wallpapers that react to your movements, offering a unique and entertaining visual experience.

Complete protection  
The case also offers complete protection for your smartphone against scratches, light knocks and everyday wear and tear
