

# Fairphone Fairphone 5 Case Fairphone

## Descriptif produit

**Because accidents happen. Because prevention is better than cure.  
Because it looks really good too!**

Protect your Fairphone from knocks, scratches and drops.  
The new Fairphone 5 protective shell's ergonomic cut-out around the fingerprint sensor/power button makes it easy to unlock your phone.  
The volume buttons are made from a tougher TPU material to give you that 'click' feel you love.  
The camera island is also housed in a more natural way, allowing for a perfectly comfortable and harmonious fit.  
Best of all, the shell is as environmentally friendly as possible, made from 100% post-consumer recycled plastics.
