

Magnetic MagSafe Powerbank Fuel Serie 5 7,5W Qi Black Xtorm

Descriptif produit

The Powerbank fits easily in your pocket, so you always have #MoreEnergy for your iPhone with you.

Extra power for your phone

The compact design of this wireless magnetic power bank is ideal if you are looking for a small magnetic charger. It charges your phone whenever you want. Charging your device with this power bank is very simple. Just attach it to the back of your iPhone and charging will start instantly. With a capacity of 5,000 mAh, you have extra power for your phone at your fingertips and can get through the day without worrying about recharging!

Xtorm MagCharge Pro for smooth charging

Thanks to MagCharge Pro technology, you can recharge your phone magnetically and wirelessly. Thanks to its ultra-powerful magnets, the external battery attaches to the back of your phone and stays securely in place. It charges quickly and wirelessly thanks to its powerful and smooth magnetic connection. With the MagCharge Pro 7.5W, you can charge your phone effortlessly and in no time. Xtorm MagCharge Pro technology is fully compatible with Apple's MagSafe system.

Use your phone while charging

The iPhone and Powerbank combination fits comfortably in your hand while charging. The flat Powerbank takes up little space and is very light. Its geometric design and the materials used ensure a comfortable grip. This allows you to use your phone effortlessly while charging. Continue using your app, making calls, browsing or scrolling through your Instagram feed. No more worrying about a dead battery!

LED display of current battery status

The LED screen displays during charging and shows the current battery percentage of the external battery. You can see with your own eyes the energy flowing from the external battery to your phone! This display also tells you when it's time to recharge the external battery itself. At a glance, you know the energy level of the magnetic wireless external battery.

Ready to use in 1.5 hours with Xtorm fast charging

When the Powerbank needs to be recharged, the 18 W fast charging feature gets it done in no time. Via the USB-C port, you can fully recharge the Powerbank FS5 in 1.5 hours. Thanks to the pass-through function, you can recharge your phone wirelessly at the same time as the Powerbank. This way, your phone and Powerbank are quickly ready for the next use!

Charge all types of smartphones

Smartphones that do not support wireless charging can also be charged using a cable via the 18 W USB-C connection. When charging a phone via the USB-C port, you are using Xtorm Fast Charge technology. This technology ensures ultra-fast charging of your phone!

Xtorm safety check

The 6-level Xtorm safety control guarantees the safety of the wireless magnetic Powerbank! The built-in mechanisms protect the Powerbank itself and the connected devices against short circuits, overheating and overcharging, among other things. This intensive quality control allows you to use this Powerbank every day without any
