

5-Pack Film Screen protectors All in One For machine 3MK

Descriptif produit

TitanGlass™ combines strength and thinness for screen protection that is 5x more resistant, invisible and easy to apply.

The new generation of screen protection
TitanGlass™ is a revolutionary hybrid glass, designed with the All-Safe™ system to offer exceptional strength and maximum safety.

Strength and flexibility combined
Combining the robustness of tempered glass with the flexibility of a protective film, it increases your screen's resistance by up to 500%, while protecting it from scratches and impacts.

Transparency and full compatibility
Virtually invisible once applied, TitanGlass™ fits perfectly on all phone models, while remaining compatible with Face ID and fingerprint readers.
Its oleophobic coating ensures a surface that is always clean and easy to maintain.

Precision design
Thanks to Adaptive Edge AI technology and the proprietary UniBlade™ blade, each edge is cut with micrometric precision, ensuring a perfectly smooth and consistent feel.

Adaptive Edge AI smart technology
This feature adjusts the cutting pressure and speed in real time for an optimal fit according to the characteristics of the glass — a guarantee of unrivalled quality and durability.

Simplified, flawless installation
The exclusive 3mk applicator allows for quick, precise, bubble-free installation, eliminating the risk of lifted edges and ensuring perfect adhesion from the very first use.

Technical characteristics

Type of protection: Hybrid glass
Installation: Simple dry installation using an applicator
Thickness of protective layer: 0.275 mm
Thickness of adhesive layer: 0.035 mm

Compatible mobiles

Universal

Ref : 3MKAIOTITANPHONE1

EAN : 5903108612326
