

Smart Watch ICE SMART 3.0 Rectangular with Strap Black Ice Watch

Descriptif produit

The watch that accompanies you every day: health, sport, communication and practicality, all at your fingertips.

Activity Tracking and Health

The watch tracks your steps, distance travelled and calories burned, and provides a detailed analysis of your activities in the mobile app. It also measures your heart rate, blood pressure and oxygen saturation, recording the latest measurements to monitor your health on a daily basis. Sleep analysis allows you to track the duration and quality of your sleep to improve your recovery.

Sports and GPS features

Over 100 sports modes are available for different types of activities (running, cycling, yoga, etc.), with accurate data to track your progress. For outdoor activities, the built-in GPS tracks your route in real time and quickly picks up the signal in open areas. The last three sports sessions are recorded for continuous monitoring of your performance.

Communication and Notifications

Receive and make calls directly via Bluetooth, access your call history and manage your contacts. You can also view your notifications (calls, messages, alerts) directly on the watch. The built-in voice assistant allows you to control your phone with voice commands.

Multimedia and Practicality

Control your phone's music from your watch: play, pause, change tracks and adjust the volume. You can also use the watch to remotely trigger your smartphone's camera to take photos. Practical features include an alarm, stopwatch, calculator, torch and menstrual cycle reminder.

Customisation and Settings

Customise the watch display, brightness, and vibrations. You can also activate 'Do Not Disturb' mode, choose between digital or analogue display, and adjust the audio settings for calls and notifications.

ICE Smart App and Charging

The ICE Smart app allows you to customise the watch face, set health reminders and choose the time format. A dedicated cable is provided for charging, with a recommended 5V/0.5A adapter for fast and safe charging.

Languages and Multilingual

The watch is available in several languages: French, English, German, Spanish, Italian, Chinese, Japanese, Russian, and more, for easy and personalised use.

Compatible Bluetooth®

Color : Black

Ref : ICEW024300

EAN : 4895173338465

Pack contents : Smart Watch ICE SMART 3.0 Rectangular with Strap + Strap + Magnetic USB cable + User Guide/Security/Warranty

Technical characteristics

Collection: ICE smart 3.0

Weight: 190g
