

Digital cameras PixPro C1 Brown Kodak

Descriptif produit

The KODAK PIXPRO C1 is an ultra-compact digital camera designed for those who want to immortalize their memories with simplicity and style.

Its minimalist and lightweight design makes it the ideal everyday companion, whether for a getaway with friends, a day out with family, or a moment captured on the fly.

Featuring a 13-megapixel sensor, it delivers crisp, colorful image quality, perfectly suited for photo prints, albums, or sharing on social media.

Easy to use thanks to its intuitive interface, the KODAK PIXPRO C1 focuses on instantaneity: turn on, point, shoot, and it's ready to go.

The built-in tilting screen lets you view your shots live or in playback mode, and the Micro SD card storage ensures plenty of storage for your photos, without worrying about running out of space.

Its built-in, USB-rechargeable battery makes it easy to recharge wherever you are.

Compact, practical, and affordable, the KODAK C1 is perfect for those who want a simple, efficient camera that's always ready to capture the moment.
